Angel Mendez Reyes

Long Island, New York | mendaj@farmingdale.edu | GitHub | LinkedIn

Education

BS, Computer Programming and Information Systems. Farmingdale State College, Farmingdale, NY. Expected 2028

- CSTEP Member | Triple Alpha Honors Society

Technical Skills

- Languages: Java, SQL, Python
- Frameworks/Technologies: FastAPI, React Native, REST APIs, Gemini API
- Databases: MongoDB, Microsoft SQL Server
- Tools: Git, GitHub, SQL Server Management Studio, MongoDB Compass

Research Experience

Undergraduate Research Intern. Summer Undergraduate Research Institute (SURI). Farmingdale State College, Farmingdale, NY. Summer 2026

- Designed and implemented FastAPI endpoints with Python request/response models, authentication logic, error handling, and frontend-backend integration
- Integrated Gemini API functionality into backend workflows by passing contextual data, configuring model parameters, and processing AI-generated responses
- Implemented MongoDB functionality including collection creation, CRUD operations, and indexing to support application data workflows
- Used Git and GitHub for version control and collaborative development within a shared project repository

Coursework / Projects

SMS Spam Detection ML Project. Python, scikit-learn.

- Built a Multinomial Naïve Bayes classifier to label SMS messages as spam or ham.
- Achieved ~97.8% accuracy and ~95.6% spam precision after preprocessing and vectorizing 5,500+ messages.

Concert Database Coursework Project. SQL Server, SSMS.

- Designed a relational database schema and wrote SQL scripts to create and populate tables from CSV data.

Work Experience

Powder Coating General Laborer. D&I Finishing. Ronkonkoma, NY. 2024 to present

- Support production workflow and collaborate with team members to meet finishing quality and safety standards.
